

Kelly Hanagan

My major is Accounting and Finance. My goal when I grow up is to become a Cpa and take over my moms company.

While I dont have much technical background I am pretty confident in my skills within excel. I am able to do many shortcuts in excel to make it a more efficient source for me. I feel that I excel in Apple products as I own mostly Apple products. I am able to find shortcuts for daily usage

About me About me

- I am from Arizona and swam for the majority of my life
- I have one sibling who is my best friend and is two years older than me
- I am in a sorority on campus which has allowed for me to grow as a person as I am typically very shy
- I chose UNR as I felt I needed a place to grow where I couldn't go home every weekend but also could fly home if needed
